Bathroom Wall Privacy Policy

by **Max Wiederholt** • hello@mischief.app

_____

OVERVIEW

Bathroom Wall is an Action developed for the Google Assistant by Max Wiederholt.

OUR PRIVACY POLICY

Bathroom Wall uses technology from the following products and services:

- **Actions on Google**
  A developer console to build actions for the Google Assistant

- **Dialogflow**
  A developer console to build conversational agents that fulfill Google Assistant requests

- **Firebase**
  Google's mobile development platform to build apps without infrastructure

  - **Cloud Functions for Firebase**
    Run mobile backend code without managing servers

  - **Cloud Firestore**
    NoSQL document database

Our code is open source, **hosted on Github**.

EXAMPLE USE CASE

User data is stored only in the limited use case described below.

- To start the application, a user will say, "Hey Google, talk to Bathroom Stall." or "Ok Google, talk to Bathroom Stall."

- The application will greet a new user with something like, "Welcome to Bathroom Stall! You can hear a message from the last visitor, then leave a reply. The wall says: "

- At this point, Bathroom Stall queries a NoSQL database hosted by Google's Firebase Cloud Firestore ("the Database"). The secure database connection is managed by Google's Firebase Functions, and the exact JavaScript function is available for public review [on Github](#).

- Bathroom Stall retrieves whatever message was left by the last user, and provides that information to the current user.

- Bathroom Stall then provides the current user an opportunity to leave a response to the last user's message. Using Dialogflow's natural language processing (NLP), the current user's message is translated from speech to text, and that text is stored in the Database.

- Bathroom Stall then thanks the user for visiting and closes the conversation.

DATA PROTECTION

Bathroom Stall does not share user data with any service not owned or operated by Google.

Bathroom Stall is intended to be used in accordance with U.S. federal law and the U.S. Constitution's First Amendment, which reads:

> Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or **abridging the freedom of speech**, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

CONTACT US

For questions regarding Bathroom Stall, this privacy policy, or how we respect user privacy, please send an email to **hello@mischief.app**.

Please allow reasonable time for our legal team to respond to incoming requests.

Thank you for using Google Assistant! We hope you find our action to be fun, educational, and entertaining.
